The Finer Details—From Start to Finish

There's a lesson that Audra Siao and Stephanie Hamilton have learned throughout the last 15 years in the design industry: If you want a timeless luxury space, then a keen eye for design is only half the battle.

Partnering together since 2013, Audra and Stephanie go beyond sheer creativity, acting as a client concierge for their busy, professional clients and working hand-in-hand with architects and contractors to provide full service design for high-end residential interiors. Committed to handling every detail during a new home build, Audra and Stephanie do extensive work with their clients up front in order to gain a deep understanding of their design preferences.

"We'll pick all finish materials at the start of construction, providing detailed renderings of furniture placement, high-tech lighting and textiles," says Audra. "They quickly discover they can trust us to handle every aspect of their design project—from project management to finish selection—even when they're not able to be heavily involved in the project. Our goal is to completely eliminate any stress-inducing unknowns so we can focus on delivering a perfect reflection of our clients' personal design aesthetics."
